

Taborsky profiles are now also available with a wood look coating.

This opens up **new design possibilities** for roof, wall, façade or design elements in interior and exterior areas.

The 3D effect of the wood finish creates a **lasting, realistic surface feel**.

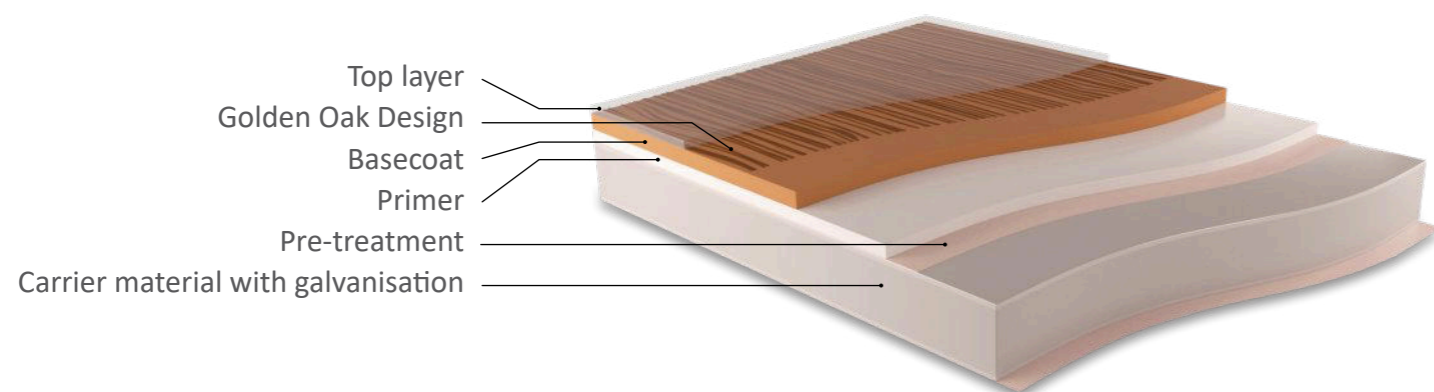

The Golden Oak surface is now considered a **best-seller among wood decors** and is characterised by its welcoming shade of brown. Despite its pronounced grain, the overall impression isn't excessively dark and, like the Oak version, conveys **strength and durability**.

Sheet steel with a coating in Golden Oak wood decor is available from us in the following versions:

- ✓ Roof and wall profiles
- ✓ Façade profiles
- ✓ Siding profile
- ✓ Large format shingle
- ✓ Small and large coils
- ✓ Special designs (edging and stamping)

Golden Oak

The wood decor surface Golden Oak not only impresses with its **elegant look and haptic**, realistic effect, but also due to its **durability and longevity**.

New Coatings Now Available for Taborsky Profiles

We are continually working to introduce new products, surfaces and coatings to perfectly meet our customer's requirements.

The Taborsky profiles stand out thanks to their unique combination of different, high-quality surfaces and colors. This allows you to create unique, individual and distinctive building coverings.

We have now extended our standard range of coatings to include:

WH 69006
Wave horizontal

CO 301
Corten Look

SG 501
Stone Look

BE 401
Bronze Anodized Look

The coatings are applied to a galvanized steel sheet with a thickness of 0.75 mm.

The materials can be used for our standard profiles (TR10/100, TR20/125, TR35/207, TR40/183, TR45/333, TR50/250, WB18/76) as well as for the Taborsky facade and siding profiles.
